Other prices in proportion. Don't forget the old stand.

Donaldson & Pembridge.

TELEGRAPHIC.

(By Special Telegraph.)

Qu'Appelle, May 5.

The Winnipeg deputation has arrived in Ottawa. The main purpose of the deputation is to secure the abolition of monopoly. Watson's motion will stand over a few days to give the deputation an opportunity to arrange matters. The question will be brought up on its merits, not on party lines.

It is not the intention of the Government to repeal the Franchise Act.

Mr. Ellis thinks the fishery regulations not too severely enforced against American vessels.

The contract for the building of the bridge over the Bow river at Calgary has been awarded to Kennedy, of Calgary, and Henry, of Ottawa.

It is said that if O'Brien attempts to speak in Toronto or Ottawa there will be trouble.

It is authoritatively stated that the Imperial Government have decided to send troops to the assistance of the Amir of Afghanistan if called on to do so.

Native Indian troops under their own officers, directed by superior English officers will be selected for this service.

A Calcutta despatch to-day represents the Amir's troops in the Ghilzai country sweeping everything before them.

Rev. Mr. Fernier, of Hamilton, has been appointed Rector of Prince Albert.

The shipwreck John Knox has gone down off St. John's, N.E. Thirty lives lost.

Disallowance is the principal topic in the corridors and hotels, and great interest is shown in the result of the interview of the Winnipeg delegation with the Government.

Sur John replying to the delegation, said the Cabinet must have time to consider, and hoped to give an answer in a week.

D. H. Macdonald, M. P., has arrived in Ottawa.

The Brandon, Souris and Rock Lake Railway bill has passed its second reading.

Sir Charles Tupper will make his budget speech on Tuesday.

Judge Maguire will leave shortly for Prince Albert.

Smith announced in the British House of Commons this morning that the Government had resolved that the Times had committed a breach of privilege, which was not sustained by precedent. Parliament denounced the Government's position.

There is difficulty over the Crimes bill in the British cabinet, and Matthews, Home Secretary, is likely to resign. Salisbury has had several interviews with the Home Secretary with a view to a modification of the bill.

A dreadful fire is in progress in the Victoria Coal Company's mine at Nanaimo, B.C. Of 160 miners only seven have been rescued so far.

Small boys attention. T. O. Davis sells clothing with pockets that mothers won't break through. \$3.50 a suit.

We have received from the well known seed firm of D. M. Ferry & Co., Windsor, Ont., their illustrated Seed Annual for 1887. We have also received a parcel of seeds, sent with the laudable desire to add sunshine to the clouded career of the average editor, "whose life is full of bitterness and disappointments—the vegetable one to give him strength and vitality, while the flowers will send a fragrance and aroma through his sanctum sanctorum that will make him think that he is living in a realm of bliss where free lovels are unknown."

The vegetable ones may do their part, but the aroma of the flowers, we fear, will fall signally to add the sunshine. Nothing gladdens the heart of an editor so much as money.

A dog passed down River street yesterday with a tin pan tied to its tail, causing a horse belonging to Chase, Mart to take to its heels in an opposite direction, bringing the buckboard to which it was attached in contact with a telegraph pole, seriously damaging the former. In future all dogs must be kept tailed.

CHIT-CHAT LOCALS.

Gathered by our Reporters

Beautiful weather. Four-clap kid gloves only \$1 at T. O. Davis.

Russell & Davis have two yoke of working oxen for sale.

The H. B. Co. intend opening a branch store in Tait's Block in a few days.

Tenders are advertised for in another column for appliances for the fire brigade.

Active building operations have been commenced on the new schoolhouse for School Section No. 3.

The detachment of Police which was stationed at Touchwood arrived in Prince Albert on Monday last.

Louis Schmidt, Albert St. Louis and R. Ouellette, have been elected trustees for Prince Albert Catholic School District No. 6.

The rain of last week was just what was needed, and is doing a great deal of good. Farmers are now hopeful of reaping good crops.

Chief Factor Bellanger arrived by the last mail from Winnipeg, and is the guest of the Hon. Lawrence Clarke. He will float down the river to Cumberland next week.

Wm. Drain has returned to Prince Albert.

Capt. Webber, Mr. Clarke, Jas. Levy, and others of the crews of the Northwest and Marquis arrived on Tuesday night last.

Capt. Webber will command the Marquis and Commodore Sheets the Northwest during the season.

The mail arrived on Monday last, a special arrived the same day, bringing Chief Factor Bellanger, of Cumberland, Mr. Johnstone, of Qu'Appelle, and a son and cousin of Mr. Peters, the Government architect in charge of the new Police barracks.

Mr. and Mrs. Montgomery are expected to arrive here from the east on the 15th inst. We are pleased to learn that they were guests of Lord and Lady Londonderry at the New Regal reception held in the Senate Chamber on the 16th inst.

At a meeting of the Memorial Committee held on Tuesday last, it was decided to build a hospital, the work to be commenced as soon as \$1,000 in cash had been subscribed, when the Town Council will be asked to subscribe \$1,000.

A committee was appointed to communicate with the officers of the different regiments who were on active service during the late rebellion, asking for contributions in aid of the proposed hospital.

A meeting of the Prince Albert Cricket Club took place last Friday evening, Mr. Starforth in the chair. The accounts handed over by A. B. Sprout showed a balance to the credit of the club of \$33.30. D. Northgraves was elected President, A. Agnew, captain, and J. D. Hannafin, Secretary. A. B. Sprout, H. Starforth, and A. Agnew were appointed to canvass the town for members. The entrance fee was placed at \$1. A meeting of the club will take place this evening.

Dude it cheap—\$6.50 will buy a dandy blue serge suit at T. O. Davis.

A meeting of the Directors of the Horse Agricultural Society will take place on the last Tuesday in May (30th), at the Queen's Hotel, at 2 p.m. The attention of the Directors is specially called to the resolution passed two years ago, as follows:—"That each director be requested to canvass their respective districts for members and impress upon the mind of each farmer the great benefit to be derived from supporting such a Society." We also beg to call the attention of the settlers who received seed grain to the fact that it was through the Society the grain was applied for and that the officers of the Society were put to a great amount of trouble in getting the seed in regard to the quantity required, and that every settler who obtained seed is more or less under obligations to the Society and should fulfil those obligations by becoming members. The Secretary or any of the Directors will be pleased to receive subscriptions for membership. Annual fee, \$1.

Methodist Church.—Red Door Hill and Eastern Lake City where services are held at 11:30, East End, 4 p.m.; Mission at 7 p.m. Prayer meeting Wednesday and Thursday evenings at 7:30. Mission and East End. Rev. C. N. Willis, pastor in charge.

THIS PAPER may be found on
ROWELL & CO'S Newspaper Advertising Bureau, 10 Spruce street, where advertisements may be made for in NEW YORK.

FRIDAY, MAY 6, 1887.

AT OTTAWA.

Mr. Macdowall has arrived back from Scotland, and I have commenced his Parliamentary duties. While we were sorry that he should have been absent from the House so long, it is only fair to state that no matters have come up as yet of special interest to the Northwest. He is, therefore, in a position to do as much for Saskatchewan as if he had not been absent, and we are sure he will not fail to raise his "squeaky voice," and use every other means in his power to further the interests of his constituents.

THE FISHERY DIFFICULTY

Speaking of the fishery difficulty the *Montreal Star* says:—

"The cable telegram leads to the conclusion that some progress is being made towards a settlement of the fishery difficulty with the United States. The rumor that Lord Salisbury is willing to settle the dispute on the conditions of the Treaty of Washington minus the pecuniary indemnity should be taken with many grains of allowance. The privilege of fishing in American waters extended to Canada by that treaty is worth little or nothing to Canadians, so that the only advantage that the Dominion would get under the reported new arrangement in return for giving the Americans free use of its inshore fisheries and extending to American fishermen facilities for obtaining supplies and transhipment of fish, would be the free entry of Canadian caught fish into the United States market. This looks to us like a very one-sided arrangement, nearly all the advantage being on the side of the United States. Under such an arrangement the speedy exhaustion of the inshore fisheries of Canada would be a matter of certainty. Independently of the extra drain on those fisheries which opening them up to Americans would cause, the American methods of fishing are very wasteful and it would be found exceedingly difficult to compel United States fishermen to conform to Canadian laws and regulations.

"It is well to see that the eyes of reflecting Americans are being opened to the injury which non-intercourse with Canada would inflict upon the commerce of the United States. Secretary Bayard sees that to carry out the threat of Congress would not be quite so pleasant a way of punishing Canadians for the crime of protecting their own property as some ignorant and unreflecting members of Congress seemed to think, in fact, that it would bear a very close resemblance to that very unprofitable operation of cutting off your nose to spite your face. His language on this aspect of the question will bear repetition. 'It is doubtful,' he said, 'if the interests of San Francisco in maintaining her present coal supply from British Columbia, aside from the importance of the great Chicago business connections with Canada and of the vast trade that ebbs and flows across our northern boundary do not exceed the interests of Massachusetts in the results of the application of such an alternative as commercial non-intercourse!'

Referring to Lord Salisbury's proposition the *Globe* assumes a somewhat warlike tone, and maintains that it is "equal to an abject surrender to the Washington Government of an immensely valuable property belonging to Canada," and the surrender of every main contention hitherto upheld by the Canadian people, and says the Ottawa Government cannot consent to it without stultifying themselves and incurring universal condemnation."

But the strange feature in that journal's contention is the fact that it now holds that the only way to settle the difficulty is by "unrestricted reciprocity" while at the same time it objects to our fisheries being thrown open to Americans on "unrestricted" terms. When Canada received five million dollars from the U. S. for the right to fish in Canadian waters the *Globe* held that it was no enough. During the last election contest it blamed the Government for not having made a reciprocity treaty with the U. S., now it advocates "unrestricted reciprocity" while it opposes the "surrender to the Washington Government of an immensely valuable property, and the surrender of every main contention hitherto upheld by the Canadian people." It is hard to tell what the *Globe* wants.

EDITORIAL NOTES.

The estimated cost of this year's distribution of seed grain is \$115,000, in addition to a balance of \$15,000 of last year's vote unexpended.

Sir John Lyster Kaye is full of his philanthropic schemes for the benefit of himself, if he is reported correctly. Regarding his farming operations in the Northwest he is said to have told a New York reporter that his "idea is one he had found feasible from actual experience at Balgonie, on the Canadian Pacific Railway, where he had a property of 5,000 acres. He found it cost about \$300 to start a homestead. A man working for the company at \$25 per month for a year, if he is found, will have \$300. My idea is that the Government send to 200 trustworthy farmers, paying their transportation, wages for one year, and 40¢ per day for keep. I to find them homes in our buildings, and while they are working for us they can acquire a knowledge of the surrounding lands. At the end of the year, if their conduct has been satisfactory, they can continue in the company's employment, and they can take up land in the neighborhood of the properties on which they are employed." In other words Sir John Lyster Kaye, in his goodness of heart, is prepared to have his land tilled and the toilers fed at an expense of over \$50,000 a year to the people of Canada, Sir John Kaye to have the benefit of the crops, if any. We did not think so much cheap could be possessed even by Sir John Lyster Kaye.

D. H. Macdowall, M. P., has arrived in Ottawa from Scotland.

COLONIZATION railways in the Province of Manitoba and the Territories have been granted three million acres during the past year, and when forty miles of the Hudson's Bay railway have been certified to by the Government engineer 256,000 acres will be added to the area.

The Scrip Commission will visit points between here and Lake Winnipeg this summer. Six hundred and two of the certificates issued by Goulet were granted to the treaty-taking Metis who last summer withdrew from their lands; 267 to legal representatives of deceased Metis, and but 200 to persons actually resident in the Northwest eligible to rank as half-breeds within the meaning of the act.

GENERAL NEWS.

CANADIAN.

Montreal has been treated to its usual spring flood, and suffered a great deal of damage in consequence. It is now proposed to raise 25 miles of streets and build a great dyke from the Lachine Rapids to Montreal, to prevent future inundations.

Sherbrooke is taking steps to establish a Victoria hospital in commemoration of the jubilee.

As a turnkey was escorting the prisoners now confined to jail at Brandon to a large room where service is held, six turned on him and beat him severely. Had not the jailer's wife presence of mind enough to release a friendly prisoner from the cell the turnkey would have had a severe beating.

A fire took place in Bleasdale's drug store, Winnipeg, on the morning of the 25th inst. Loss pretty heavy.

Full returns from Lindsay give Hilds (Con.) a majority of 50 in South Victoria.

In an interview with Mr. Daly, M.P., on the 24th, Senator Clemen stated that the construction of the Northwest Central would be vigorously prosecuted, and 500 men would be at work at Brandon within ten days.

Wm. E. Bennett, for some time acting assistant chief post-office inspector, has been permanently appointed to that position.

It is understood the Postmaster General has under consideration a scheme for the establishment of a parcels post system between Canada and the United States.

A verdict has been given in favor of Miss Bate for \$1,077 against the Canadian Pacific for value of trunks destroyed in an accident. An appeal has been entered.

A largely signed petition from Qu'Appelle has been received at Ottawa asking for the reappointment of Lieut.-Governor Bowdley.

ADVICE TO MOTHERS.—Are you distressed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? I would advise you to get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, there is no other remedy so safe and so sure. It cures Colic, Wind, Flatulency, Regulates the Stomach and Bowels, cures Whooping Cough, Croup, Hoarseness, Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is sold in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Beware and ask for "Mrs. Winslow's SOOTHING SYRUP," and take no other kind.

Carpenters, if you want a good pair of overalls cheap, go to T. O. Davis'.

TENDERS.

SEALED TENDERS marked "For Mounted Police Provisions and Light Buoys," and addressed to the Honorable the President of the Free Council, Ottawa, will be received up to noon on Monday, May 30, 1887.

Printed forms of tenders, containing information as to the articles and approximate quantities required, may be had on application of any of the Mounted Police Posts in the Northwest or at the office of the undersigned.

No tender will be received unless made on such printed forms.

Each tender must be accompanied by an accepted Canadian bank cheque for an amount equal to ten per cent. of the total value of the articles tendered, which will be forfeited if the party offering to enter into account with the Government does not if he fails to complete the service contracted for. If the tender be not accepted, the cheque will be returned.

No payment will be made to successful tenderers until the Government has accepted the tender. Inserting this advertisement without authority having been first obtained.

FRED WHITE.

Controller N. W. M. P. Office, Ottawa, March 30, 1887.

TERRITORIAL NEWS

EDMONTON.

From the Bulletin, April 9th.

Improvements are being made to the interior of the Methodist Church.

A Roman Catholic Mission is being erected on Stoney Plain.

Present indications are that more freight will be moved this year than ever before in this district.

C. H. Canon, barrister, is expected to arrive by next stage to enter into partnership with G. A. Watson.

F. Provost's gang of lumbermen left the Big Lake woods on Saturday last, having taken out 100,000 tons of logs, board measure, for the Prince Albert mission mill on the Sturgeon.

The duck-billed otter has been known to exist in Australia, but a duck-billed pig is something new. Dan Noyes, of the Long Lake hotel, has one. It is one of a litter a few weeks old, and has a duck's bill instead of the ordinary pig's nose. Otherwise it is not peculiar.

Last week wolves gnawed their way through J. E. Ingram's stable door at Sturgeon river. D. W. Wilson brought a piece of the door to town for inspection. The wolves had forced their teeth through the inch board like nails, and wrenched off a strip two inches wide.

E. A. Bly, pronounced Bee ye, sheriff of Northern Alberta, was M. P. for Kitimook, Quebec, during the last Parliament, but did not run in the late general election. He is a barrister, at one time held the position of stipendiary magistrate, is of middle age, married, and has one daughter.

The band of sheep brought by McKinnon, McPherson, Norris & Carey, last fall, are coming through the winter well. Out of 1,200 head about 50 have died. Considering that they went into the winter skin poor, having been driven from southwestern Montana during the summer, and kept herded close to Edmonton, where the feed was poor, until the snow fell, the loss is light. There has been no disease among them, and all are thriving well now. A ton of hay to six sheep was what was required to winter them.

E. Nagle came in from Athabasca Landing on Saturday last. The large H. B. warehouse there, 30 x 100, store and a half high, frame, has been completed, also a store and office 20 x 26, frame. Twelve York boats are being built for the northern trade to be completed by June first. Six hundred logs are now out to supply lumber for the boats and for the new warehouse at Grand Rapids, 30 x 50. Snow still to great deal when Mr. Nagle left the Landing and it took nine days coming in. J. Fraser had just arrived when he left. He had six boats for C. Fraser and others. During the winter he trapped \$200 worth of fur, including one silver grey fox which he sold for \$50. A band of about twelve tents was camped near the Landing all winter. They killed about a dozen moose and caught a considerable amount of fur.

BATTLEFORD.

From the Herald of April 16.

Building operations have begun, several houses being already raised.

The price paid by the Indian Department for potatoes delivered here from Edmonton is a dollar and a half a bushel.

A lodge of the Independent Order of Good Templars was organized in the Presbyterian Church on Friday evening with twelve members. It will be known as Pioneer Lodge, No. 30.

Twenty-one vessels were lost on the coast of British Columbia during the past year, with a total loss to shippers of \$600,000. Ninety lives were lost.

H. M. S. Conquest arrived at Esquimaux, B. C., on the 25th. The Triumph Flagship and Comorant are already there.

Mrs. Isiah Dougherty and Christina McKay, a neighbor's daughter, of Gale, Ont., died on the 25th ult. from eating poisonous wild hares.

A man named Evans, from London, Ont., was seized with a fit on Wellington street, Toronto, on the 25th ult. A pickpocket under pretence of assisting him, relieved him of his pocket-book containing \$300.

Major General Strange is in Ottawa on business with the Government in connection with his Northern ranching interest.

The Ontario Legislature was prorogued on the 25th.

A special from Ottawa to Victoria, B. C., states that the Chinese restriction bill abolishes certificates entirely, and each Chinaman in future will have to pay a \$50 tax each time he enters Canada. This is virtually prohibitory to Chinese legislation.

R. T. Cliff fell off the steamer Bella, near Cape Lazo, Vancouver Island, on the 23rd, and was drowned.

NOTICE.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Indian Supplies," will be opened at 10 o'clock on SATURDAY, APRIL 30, 1887, for the delivery of Indian Supplies during the year ending 30th June, 1888, consisting of Flour, Bacon, Groceries, Ammunition, Tools, etc., duty paid, at various points in Manitoba and the North West Territories.

Forms of Tender containing full particulars relative to the Supplies required, dates of delivery, etc., may be had by applying to the undersigned, or to the Indian Commissioner at Regina, or to the Indian office, Winnipeg.

Parties may tender for each description of goods for any portion of each description of goods separately, or for all the goods called for in the Schedule, and the Department reserves to itself the right to reject the whole or any part of a tender.

Each tender must be accompanied by an accepted cheque on a Canadian Bank in favor of the Superintendent General of Indian Affairs for at least five per cent of the amount of the tender, which will be forfeited if the tendering declines to enter into a contract based on such tender when called upon to do so, or if he fails to complete the work contracted for. If the tender is accepted, the cheque will be returned.

Tenders must make up in the money column in the Schedule the total money value of the goods they offer to supply, or their tender will not be considered.

Each tender must, in addition to the signature of the tenderer, be signed by two sureties acceptable to the Department, for the proper performance of the contract.

When improvements of a particular make are mentioned, it is because the articles so designated will be the Department for the purpose required better than others, in such cases the competition between tenderers must, of course, be in the transportation to the place of delivery.

In all cases where transportation may be only partial by rail, contractors must make their tenders for the supplies to be forwarded at the rate from railway stations to their destination in the Government Warehouse at the point of delivery.

Tenders will please note carefully the following conditions:

1. Supplies will not be paid for until the Department has been a surety of the satisfactory delivery of each article for which payment is claimed.
2. A tender for supplies of a description different to that given in the index will be considered, and supplies which are found on delivery to be of kind or quality different to those described, will be rejected by the terms of the Department, and the contractor and his sureties will be held responsible for the loss sustained by the Department through failure to deliver in accordance with terms of contract.
3. It must be distinctly understood that supplies are to be delivered at various points for the prices named in the tender, that no additional charge for packing or any other additional account will be entertained, and that an advance must accompany each separate delivery of supplies. An advance for each separate delivery must also be sent to the Department of Indian Affairs at Ottawa, and one to the Indian Commissioner at Regina, if the supplies are to be delivered in the North West Territories. When the supplies are for points in Manitoba, Saskatchewan, the triplicate price should be sent to R. McCall, Winnipeg.
4. Prices must be given for articles to be delivered at each point of delivery named in the Schedule for each article for which a tender is submitted, and not at average price for an article at all points of delivery, no tender based on system of averages will be considered.
5. Tenderers should understand that they must bear the cost, not only of sending their samples to the Department of Indian Affairs, but also freight charges incurred in returning such samples to the tenderer.
6. When supplies are to be delivered "regal to sample," tenderers should understand that the sample is to be seen either at the Department of Indian Affairs, at the office of the Indian Commissioner at Regina, at the office of the Inspector in charge at Winnipeg, or at any one of the undersigned Indian Agencies.

MOORE & MACDOWALL.

TOWN COUNCIL.

The Council met in the Council Chamber on Monday evening last.

Present—Mayor Moarthur, and Councilors Agnew, Bain, Bratnobar and Stewart.

The minutes of the last meeting were read and adopted.

COMMUNICATIONS

were received from A. H. Clark, with reference to a deputation from the Lorne Agricultural Society; from W. R. Gunn with reference to the closing of the trail across Lot 72, and asking that steps be taken to have the same re-opened, the trail having been in use for 30 years; and from Chester Thompson asking leave to place a steam saw mill on Clarke street. An account was received from the Northwest Government for \$1.25 for the Ordinances.

BY LAWS.

Coun. Stewart introduced a by-law to establish a public cemetery; Coun. Bain introduced a by-law to regulate the licensing of livery, hotels, saloons, restaurants, and places of public resort, also a by-law to license water carriers, draymen and hackmen.

DEPUTATION.

At this stage of the proceedings the Council was addressed by Messrs. Plaxton, Craig and Clark, the deputation from the Lorne Ag. Society, asking a grant in aid of the Society to enable them to purchase grounds and erect permanent buildings, so that in future buildings erected one year will be available subsequent years.

On motion of Couns. Bratnobar and Agnew the matter was referred to the Finance Committee to report at next meeting.

REPORTS.

Coun. Bain, Chairman of the Board of Works, reported that the petition of Chester Thompson was granted.

On motion of Couns. Bratnobar and Stewart the report was amended by inserting "For this season, in the event of no complaint being made against the use of Clarke street."

On motion of Couns. Stewart and Bain the communication of W. R. Gunn was referred to the Town Solicitor to report to the Chairman of Public Works and that the latter take action upon the advice of the former.

The account of the Northwest Government for \$1.25, and \$30 to the P. A. C. Band were ordered to be paid.

DISALLOWANCE

Moved by Coun. Agnew, seconded by Coun. Bratnobar, that the Mayor on behalf of the Town, telegraph our member at Ottawa to stand firmly by the Manitoba members on the question of disallowance.—Carried.

On motion of Couns. Stewart and Bratnobar, the Clerk was instructed to correspond with D. H. Macdowell, Esq., M. P., asking if it be the intention of the Minister of Public Works to purchase a steam engine to protect the Government buildings in this town. Carried.

NUISANCE GROUND.

The matter of a nuisance ground was next considered, where the following resolution by Couns. Bain and Agnew was passed:—That Couns. Stewart and Bratnobar be a Committee to enquire what a nuisance ground consisting of about two acres can be leased for, and to report at next meeting.

Coun. Stewart then moved, seconded by Coun. Agnew, that the Clerk instruct the Street Inspector that no more manure be put on McKay street, and that the manure and other nuisance be put on King street, south of Fourth street, beginning on the south side of the slough to deposit. Carried.

NOTICE.

Coun. Agnew gave notice that he would introduce a by-law to amend By Law No. 18.

Moved by Coun. Bain, seconded by Coun. Stewart, that the captains of the fire companies be asked to submit a list of appliances necessary for the Fire Department, and give specifications of the same, and that a committee be appointed composed of Couns. Agnew, Stewart and Bratnobar to meet with the officers of the said Fire Department to consider making by-laws, and objection to fire by law, and just as soon as this committee meet to authorize the Chairman of the Board of Works to advertise for tenders. Carried.

The by-law for dividing the town into

wards, and by-law to amend By-law No. 9 were read a second time.

The Council then resolved itself into a Committee of the Whole to consider the By-law to amend By-law No. 9, Coun. Stewart in the chair.

The By-law was read and considered, and on motion the Committee rose and the chairman reported.

The By-law was then read a third time and passed, and on motion of Coun. Bratnobar and Bain was ordered to be signed, sealed and numbered.

The Council then adjourned to meet on Monday evening at 7:30 p.m.

MEN AT OTTAWA.

(From the Winnipeg Call.)

Ottawa, April 20.

The House has hardly got down to work yet, but the real business of the House will doubtless commence in a few days. The Government, confident in its strength, is not making any particular effort to get its supporters into line, while the Opposition, on the other hand, has held a couple of caucuses, and having given up all hope of defeating Sir John, is marshalling its forces for as fierce a fight as the halls of Parliament ever witnessed. The amicable discussion of the address the other day was apparently only the customary handshaking which rival pugilists are compelled to indulge in preliminary to pounding the eternal stuffing out of their antagonists; and although that ceremony was a pleasing spectacle, when the actual oratorical contest commences then the hair will fly. Mr. Blake does not seem to be in as fine form as usual, the disappointing result of the recent election being still keenly felt by him. He sits in the House in his usual gloomy way, slouch-hatted, and with his head bowed on his arms, which rest on his desk. Sir Richard looks grim and gloomy and savage as a sea-axe, Laurier smart and effeminate as usual, Trow and Landerkin wear their ordinary every day smiles, but the others don't wear as jaunty an air as they expected they would, just before the election. Mills and Edgar, Cook, Weldon, Casey and Jones cluster around their leader. There is a noticeably discouraged air about them. You see, they built up their hopes largely on the aid they were to receive from the Bolters, and their hopes, notwithstanding their efforts to counsel these gentlemen, have had to vanish like the orange crop of Manitoba before a Minnesota blizzard. The Bolters, it seems, have with two exceptions decided to support their old chief, John. While annoyed at the Government's attitude on the Riel question, and carried away by the cry which rang through their Province when the Metis leader ascended the scaffold, they appear to prefer the "old man" after all to their professionally new found friends. They fully appreciate the motive of the Brits in their gushing friendship, but they haven't any confidence in them. And so—to the utter disgust of the Blakettes, who see their last slim hope of attaining power disappear from view—the Bolters return to the fold, leaving only the gallant Amyot to "guard the forts and provisions" of the fellows on the left. Cautious, it is also understood, is still undecided, with an inclination to still hold, and this is a disappointment to the Government, which fully counted upon him. There is consequently not an encouraging outlook for the Liberal party, and smarting under defeat, its members prefer to vent their spleenish disappointments on the devoted heads of the men responsible for their being kept out in the cold shades. Their debating power, weakened by the defeat of the "lyle" of debate Cameron, has been strengthened by Jones, the tear-down flag-man from Halifax, who curiously enough sits at Ananias' old desk. Across the divide, the chiefain occupies his old seat and looks just as young and cheerful and happy and chirpy as he did ten years ago, while beside him sits Sir Charles Tupper, who as yet has not taken any part in the brief discussion, but looks across at Blake and Cartwright with a kind of curious anticipation of the keen pleasure he will enjoy in meeting their fierce onslaughts, and the unfounded delight he will take in carrying the war into Africa. Sir Charles looks well, and his friends believe that he is better prepared to measure swords with the enemy than ever before.

Of the western contingent Davis is the only man who has yet raised his voice in the House, the others contenting themselves with getting their work in on the Ministers and departments by incessant interviews. This keeps them pretty busy, and as Mr. Searth told us

along with his pockets bulging out with daily correspondence from his numerous constituents, he whispers to me confidentially that there isn't such a terrible lot of fun in being a member after all. "See here," says he, "just look at this pile. It takes me a couple of hours each day just acknowledging them, and I guess I will have to get my amanuensis down to help. But, ding me, if I don't believe I'll have to have two if the letters keep on coming at this rate." Tom Daly looks as handsome and contented as ever, and is as busy as a nailer keeping up his correspondence, while A. W. Ross and Mr. Royal, being old hands, get through with their work with astonishing rapidity. We don't see much of Bob Watson, whose time is chiefly spent in keeping the Liberal contingent which comes from the far west, between Lake Superior and the Pacific coast, solid. None have bolted yet, and there are hopes that such an unanimity will be shown in their votes that his duties as Liberal whip will be very light.
